ASUS received 4,326 awards in 2014

A testament to our relentless innovation and the result from years of research in design and manufacturing techniques, ASUS garnered a total of 4,326 awards from prestigious technology organisations and IT journalists worldwide. This can only be achieved by a company with vision and mission to pursue the best innovation.

ASUS is increasingly placing emphasis on tablets and smartphones to stay ahead with consumers' changing lifestyle needs, and once again our innovation and persistence in perfection leads to a total of 798 awards for tablets and smartphones!

iF Design Awards

ASUS products have won numerous international industrial design awards and have once again demonstrated their outstanding design quality and innovation by taking home no less than 10 accolades at the iF Design Awards 2012.

Good Design Awards 2014

ASUS products have won a total of 17 Good Design Awards, one of the four major design awards recognised by the International Design Alliance, demonstrating ASUS' outstanding product design quality and engineering.

Innovation International CES Awards 2015

Seven ASUS products have been awarded for the CES 2015 Innovations Design and Engineering Awards honoree program. The awards have become a hallmark for the best-designed products in consumer technology and our brand promise of Inspiring Innovation • Persistent Perfection has resulted in such wide recognition for our products.

SINGAPORE
NOV 2014
HARDWARE MAGAZINE

Asus Transformer Pad offers the best combination of performance, battery life and price. The T100 doesn't look or feel that nice but it has the best keyboard, a good, responsive clickpad and decent performance and battery life for its price.

SINGAPORE
OCT 2014
STUFF MAGAZINE

That incredibly portable form factor. Its [ZenFone 5 LTE] svelte 5.5mm side view puts flagship like the chunkier HTC One (M8)'s 9.35mm and Samsung Galaxy S5's 8.1mm builds to shame. Also, nothing about Asus' attention to detail on the metallic accents spells budget at all.

SINGAPORE
SEPT 2014
HARDWARE MAGAZINE

The Zenfone 6 benchmarked very well and actual usage experience was at the top end. It also has an edge over its competition in terms of design, build quality and performance.

SINGAPORE
SEPT 2014
STUFF MAGAZINE

This Asus PC is the checklist for the latest PC innovations with a 23-inch touch screen, active 3D Blu-ray and gaming with Intel Quad Core i7 with NVIDIA Graphics card.

SINGAPORE
SEPT 2014
STUFF MAGAZINE

This [ASUS TAICHI] Win8 hybrid sticks a live tile-friendly touchscreen on top of a full laptop sporting Core i7 innards.

SINGAPORE
SEPT 2014
STUFF MAGAZINE

Powered by the latest Core i7 and NVIDIA GeForce 870M graphics processor, this [ROG G750] beastly machine is the one with extreme graphics settings.

SINGAPORE
AUG 2014
T3

Middle of the road price, but justifies its [ZenFone 5 LTE] existence with an excellent performance.

SINGAPORE
AUG 2014
T3

Introducing the triple threat: an Android tablet. The Transformer Trio does everything with mediocre skill. If you see the need for a three-in-one package, this is it.

SINGAPORE
AUG 2014
CNET ASIA

The phone still has a 5-inch HD display with a 1,280x720-pixel resolution, and runs off the Asus custom Zen UI skin with its flat and modern look. There's an 8-megapixel "PixelMaster" camera that's capable of taking photos even in the darkest of places without a flash.

SINGAPORE
JULY 2014
DIGITAL LIFE

The [Transformer Book TF103C] screen appears to have good colour accuracy. Using Splendid, a proprietary Asus app, you can tweak the display's colour temperature, hue and saturation. This level of customisation is common in PCs, but not in tablets.

SINGAPORE
MAY 2014
HARDWARE ZONE

This is our third variant of the ASUS ZenFone 5 that we've reviewed in recent months, and it is still one of the best smartphones of its class. As mentioned in our earlier reviews, the ZenFone 5 ticks almost all the right boxes - design, build quality, handling, interface, overall user experience and imaging performance. The only two drawbacks are a non-removable battery and the lack of dual-SIM support.

SINGAPORE
MAY 2014
DIGITAL LIFE

Both its SIM card slots are 3G capable and the Zenfone 5 looks sleeker and its lighter even though it has a large screen. Its display is sharp and offered excellent visuals for watching high-definition videos, complete with powerful speakers to match.

SINGAPORE
MAY 2014
HARDWARE ZONE

It [Fonepad Note 6] has a nice large high resolution display that's great for multimedia needs and bodes well for reading lengthy content with a Reading mode that helps tweak the display to suit that purpose.

SINGAPORE
APRIL 2014
STUFF MAGAZINE

This [Transformer Book T100] is a machine that gets things done but doesn't overly scrimp on play 'n' procrastination points either, and that makes it a cracking all-rounder and an absolute bargain. Needless to say, it finds itself comfortably nestling into our Top 10 list of the best tablets in the world right now.

SINGAPORE
MARCH 2014
STUFF MAGAZINE

The [MeMO Pad 7] screen is great with vibrant colours and the 5MP camera is surprisingly capable. We also like the skinned version of Jelly Bean, complete with apps in resizable floating windows.

SINGAPORE
JAN 2014
HARDWARE ZONE

The Zenbook [UX301] boasts a 2560 x 1440, clarity is excellent and the display is also bright with decent viewing angles.

SINGAPORE
JAN 2014
DIGITAL LIFE

Asus Transformer Book Trio has two distinct processors. One chip resides in the tablet; the other, inside the keyboard dock. This means it can be used as a tablet, a laptop or even a desktop PC when connected to an external display. Asus has put in effort to make it easy to share data between the two platforms.

SINGAPORE
JAN 2014
DIGITAL LIFE

[Transformer Book T100] Awarded for the best Windows tablet for being affordably priced and comes with a keyboard dock. Battery life is also excellent with its Intel Atom Chip.

SINGAPORE
JAN 2014
DIGITAL LIFE

With its stunning Gorilla Glass Lid, the Asus Zenbook [UX301] may be the best looking Ultrabook here. It also leads in performance with a high resolution screen and a graphics chip that is faster than the standard ultrabook.

SINGAPORE
JAN 2014
DIGITAL LIFE

For Android purists, the Google Nexus 7 is undoubtedly the tablet to get. But even non-Android users will appreciate the stunning 1,920 x 1,200 pixel display on this 7-inch tablet.

SINGAPORE
FEB 2014
HARDWARE ZONE

The Ultrabook market is crowded and competitive, but ASUS has done a good job offering something unique with the UX302. We liked the gorgeous dark metallic blue lid with its Gorilla Glass 3 protection (even if it is a fingerprint magnet) and the discrete NVIDIA GT 730M GPU, which, while not powerful enough to make the UX302 a gaming machine, is certainly much better than the standard Intel HD Graphics 4400 integrated graphics found on most Haswell Ultrabooks.

SINGAPORE
JAN 2014
HARDWARE MAGAZINE

Asus impressed us with the 5-inch version of its eccentric phone-in-tablet Padfone launched earlier this year. The Padfone Infinity has been upgraded to the latest Qualcomm Snapdragon 800 processor, which puts it on par with other 5-inch flagship smartphones. In our benchmark tests, it performed well, scoring far better than the previous model.

SINGAPORE
NOV 2013
HARDWARE ZONE

What we like about the TF701T are its solid design, good build quality, great display, functional keyboard dock which also doubles as an extra battery pack, an almost stock Android interface, smooth performance and long battery life. Good camera imaging performance is a bonus too, although it's a seldom used feature on tablets. Having said that, the TF701T is in the running for the best productivity tablet as its keyboard mobile dock remains one of the key selling points. At just \$5749, it is hard to find any other tablet that can rival its overall package and strong suite.

SINGAPORE
OCT 2013
HARDWARE ZONE

At \$5249, the MeMO Pad HD 7 seems like a decent buy for the mainstream consumer who is looking for a no-frills tablet. It is essentially a repackaged Nexus 7 (2012) in a different skin and processing platform.

SINGAPORE
OCT 2013
DIGITAL LIFE

Despite a slow hard drive, the Asus G750JX provides excellent graphics performance for its price.

SINGAPORE
OCT 2013
T3

A system that serves and entertains, just be ready to wipe the grease off the [ET2220INTI] screen when they're done.

SINGAPORE
SEPT 2013
DIGITAL LIFE

At \$379, there are cheaper small tablets apart from the Nexus 7, such as the 7-inch Samsung Galaxy Tab 3 (\$298 for 8GB). But the Nexus 7 gets my vote for its excellent display and solid hardware.

SINGAPORE
AUG 2013
HARDWARE MAGAZINE

The Fonepad is actually the best tablet-phone hybrid we've reviewed to date. It has a more solid build and offers better overall performance than most of its similar-sized competitors.

SINGAPORE
JUNE 2013
HARDWARE ZONE

At \$5249, the MeMO Pad HD 7 seems like a decent buy for the mainstream consumer who is looking for a no-frills tablet. It is essentially a repackaged Nexus 7 (2012) in a different skin and processing platform.

SINGAPORE
JUNE 2013
HARDWARE MAGAZINE

As a tablet, the transformer AIO [P1801] is anything but portable holding an 18.4-inch tablet weighing 2.4kg in one hand while swiping with the other is no mean feat. As a result, the only comfortable way of using the tablet is to either prop it on the table using the integrated stand, or to place it on one's lap.

SINGAPORE
MAY 2013
CLEO MAGAZINE

This [Nexus 7] tablet comes with a reading app that's slick and intuitive. It's perfect for marathon reading sessions thanks to its IPS-paneled screen, which offers crystal-clear images and wide-viewing angles.

SINGAPORE
MAY 2013
CLEO MAGAZINE

This [S400] affordable touchscreen laptop may not be powerful enough to play graphically-demanding games, but is more than capable of running multiple applications without stuttering or hanging. Plus, its slim frame makes it super easy for your guy to carry it wherever he goes.

SINGAPORE
MAY 2013
DIGITAL LIFE

Asus' latest hybrid [Transformer AIO P1801] lets you switch seamlessly from a PC to a tablet while working on the same task. But unless you have a compelling need for a giant tablet, this novel machine will appeal only to geeks and early adopters.

SINGAPORE
MAY 2013
DIGITAL LIFE

In this line-up, Google's Nexus 7 - made by Asus - is undoubtedly the definitive affordable Android tablet. The Nexus 7 is by far the best Android tablet for those on a budget.

SINGAPORE
MAY 2013
T3

It [VivoTab Smart] does pretty good for its price, whether or not it's a must buy is down to personal preference.

SINGAPORE
MAY 2013
T3

Tasty "trophy" gadget [Transformer Pad Infinity TF700T] with beautiful screen.

SINGAPORE
MAY 2013
T3

Attractive and powerful [UX32VD] Ultrabook, and for a bargain of a price as well.

SINGAPORE
MAY 2013
HARDWARE ZONE

The ASUS Fonepad is actually the best tablet-phone hybrid we've reviewed to date. It has a more solid build and offers a better overall performance than most of its similar-sized competitors.

SINGAPORE
APRIL 2013
HARDWARE ZONE

That said, the ASUS Taichi 21 is a handsome and solidly built notebook. The interior of the machine is also pretty much mostly made of aluminum, just like an ASUS Zenbook, which means it's quite sturdy and will be able to handle hard knocks.

SINGAPORE
APRIL 2013
CNET ASIA

The Asus VivoBook S400CA may have a new name, but it's a very familiar laptop, infusing some of the Zenbook design into a 14-inch Windows 8 laptop with a touchscreen.

SINGAPORE
APRIL 2013
STUFF MAGAZINE

Don't underestimate that keyboard dock. The Asus Transformer Pad Infinity [TF700T] not only uses it for its trackpad and keys, but also for connections and extra battery life which you won't find easily on any other tablet. Toss quad-core power into the mix, and you've got a heck of a soup-ed up table.

SINGAPORE
APRIL 2013
STUFF MAGAZINE

With 7" worth of screen estate, quad-core powered and operating on the freshest Android 4.1 Jelly Bean, it's [Nexus 7] everything and more than what \$250 can typically buy you in times like these.

SINGAPORE
MARCH 2013
HARDWARE MAGAZINE

The ASUS Nexus 7 is the standout winner in the 7-inch tablet category offering an excellent combination of good design, decent build quality, top-notch hardware and software, as well as superb performance at an unbelievably low price.

SINGAPORE
MARCH 2013
HARDWARE ZONE

The Google Nexus 7, manufactured by ASUS, is certainly the cream of the crop with the perfect combination of good design, decent build quality, top-notch hardware and software, superb performance - all at an unbelievably low cost.

SINGAPORE
FEB 2013
CNET ASIA

In a sea of hard-to-distinguish Atom-powered Windows 8 tablets, the Asus VivoTab Smart stands out a bit thanks to clever accessories.

SINGAPORE
FEB 2013
DIGITAL LIFE

Google and Asus hit the right notes with their Nexus 7 tablet. Hardware-wise, the Asus-made tablet is loaded with Nvidia's Tegra 3 quad-core processor, which complements Google's latest Android 4.2 Jelly Bean operating system to deliver a fluid and smooth user interface

SINGAPORE
JAN 2013
HARDWARE ZONE

The ET2300INTI would have been close to perfect had it come with an integrated TV tuner and a Blu-ray drive, but as it is, if what you are looking for is an all-round entertainment system or if you have an extensive collection of Blu-ray movies, you might want either stick an additional USB-based Blue-ray drive or forgo the ET2300INTI and stick to the older ET2411INTI.

SINGAPORE
JAN 2013
CNET ASIA

The Asus Taichi 21 is fun, inventive, and a great conversation starter. It's also likely more clever than practical for many, and has a bit of novelty feel, but that's true of many of the new breed of Windows 8 laptop/tablet hybrids, as PC makers struggle to find forms that will appeal to consumers.

*Limited time offer valid for qualified Windows 7 and Windows 8.1 devices (including devices you already own). See windows.com/windows10upgrade. Pre-release product shown, subject to change. *While stock last. *Price does not include PadFone station.

Ultrabook, Celeron, Celeron Inside, Core Inside, Intel, Intel Logo, Intel Atom, Intel Atom Inside, Intel Core, Intel Inside, Intel Inside Logo, Intel vPro, Itanium, Itanium Inside, Pentium, Pentium Inside, vPro Inside, Xeon, Xeon Phi, and Xeon Inside are trademarks of Intel Corporation in the U.S. and/or other countries.

*Battery life will vary according to use. *In compliance with IPX2 and drop test performed on a steel surface from up to 1.5m, this smartphone is protected against falling water and drops. Provided that the cover is firmly closed, the phone is (i) protected against water when tilted up to 15 degrees from all practicable directions for up to 10 minutes, water equivalent to 3mm of rainfall per minute in compliance with IPX2; and/or (ii) capable of resisting drops on a steel surface from up to 1.5m. Test is run three times at alternating heights, with impact testing on all sides of the device. All tests were performed on the smartphone only, not including PadFone S Station. Please note that the above information does not constitute as ASUS manufacturer warranty. Please refer to ASUS Warranty Information alone with your product for the detailed information. Please refer to the PadFone S product page at <http://www.asus.com.sg>.

ASUS 2 Years International Warranty*

ASUS guarantees you with no repair and component charges within your 2 years warranty period for notebooks. For tablets, 1 year international or local warranty is offered depending on the models. ASUS international warranty makes sure that you are protected even if you are stationed abroad, with our centres established across 55 countries.

This is ASUS' commitment to deliver quality and customer satisfaction to you, wherever you might be.

*International Warranty excludes all Desktop and All-in-One (AiO) products; Extended warranty for Desktops and All-in-One (AiO) only covers for local Singapore services.

[^]Desktops include: ROG G20AJ-SG012S, M52AD-XTREME-SG006S, M32AD-SG006S, M32AD-SG004S, P50AD-SG014S, P50AD-SG005S, ET2323INT-BF031Q, ET2323INT-BF032Q, ET2230INK-WC015Q & PT2001-BE011Q. Top up \$89 and \$129 for 2 years and 3 years on-site warranty respectively. Extended Warranty is applicable for recent purchases of consumer desktops and AiO models with 1 Year On-Site Warranty (DT/AiO purchase invoice date within 1 year). ASUS reserves the right to change/terminate the abovementioned promotion without prior notice.

All bonus gifts to be collected from dealers. Bonus gifts while stocks last only. Only purchase of ASUS products during the promotion period is entitled to the bonus gifts indicated in this flyer. Redemption of bonus gifts and promotions after indicated date in this flyer will be considered invalid. Products and bonus gifts' images are for reference only. Specifications are correct at time of print. ASUS reserves the rights to change any specifications without prior notice.

ASUS stands by their notebook LCD panels, offering a one month servicing/replacement of the panel from time of purchase should the panel have any bright dot.

The Choice of IT Professionals

In today's digital age, our devices such as notebooks, tablets, mobile phones, and desktops store lots of sensitive personal data. That is why IT professionals all over the world choose ASUS. They know that ASUS is synonymous with quality and reliability. Whatever you use your device for, be it watching movies, listening to music or viewing photos - ASUS is the natural choice delivering technology and style. But don't take our word for it. Consult an IT expert before purchasing.
