Why ASUS LED Projectors

Following a sharp increase in visible LED performance in the last few years, LEDs are increasingly being used as a light source in projection systems. ASUS lamp-free LED projectors deliver eco-friendliness, longevity, saturated colors, and high integration capabilities for users.

LED
 Light Source
 30,000 hours
 Lifetime

Bright and Crystal Clear Display Eco-friendly Lamp-Free Projection

Thanks to extremely long service life of mercury-free LED light source, up to 30,000 hours, ASUS LED projectors eliminate the need for frequent lamp replacement, reducing expensive maintenance costs, and lower consumption of power and CO2 emission. To use the ASUS LED projector for 8 hours per day, with the lifespan of 30,000 hours, can be used around 10 years without lamp change.

Instant On/Off

Quick and Convenient Control Instant On and Off Button

ASUS LED Projectors can be quickly set up to provide crystal clear projections in seconds from power-up without any need for long warm-up times. There is no cooling down period required either, powering off instantly.

Wireless
 Projection Ready

Portable for the Road Wireless Projection Ready

ASUS Wi-Fi Projection lets you wirelessly connect and stream presentations, photos, and other contents from an Android or iOS smartphone, tablet, or notebook to the projector for convenient control and cable-free use.

Mobile High-Definition Link

ASUS Hi-Fi Audio Technology

Made for Work and Play Rich Connectivity & Astonishing Audio

ASUS LED Projectors are embedded rich connectivity* with various devices, such as laptops, smartphones, tablet PCs, media players, game consoles, memory cards or USB drives for large-screen enjoyment.

Everything you need yet smaller

ASUS VivoMini delivers smooth full PC multi-tasking performance and productivity for work or play. The compact design frees up precious desktop space, while its modern Zen-inspired concentric-circle finish is easy on the eye and blends in anywhere in the home or office. VivoMini can be VESA-mounted on the back of a display too, allowing users to create their own custom All-in-One (AiO) PC for a tidy, clutter-free desk or workstation. VivoMini is ideal for a wide range of business applications and home needs. It can be used in point-of-sale (PoS) terminals, digital signage, kiosk displays, or as a computing platform for small workstations; it can also be a personal or family PC for surfing the web, playing games and watching movies.
