ASUS Won 4,368 Awards in 2015

ASUS is dedicated to pursuing the highest level of innovation and quality in everything we do. We aspire to become one of the world's most admired leading enterprises in the new digital era. Our ongoing efforts continue to garner worldwide recognition in every aspect of product development, including design, innovation, technology, quality, service, and energy-efficiency. In 2015, ASUS earned 4,368 awards from some of the most prestigious international organisations and media groups around the world. Each award is a testament to our relentless quest and commitment to creating technology that is designed for everyone to joy.

iF Design Awards
ASUS products have won numerous international industrial design awards and have once again demonstrated their outstanding design quality and innovation by taking home no less than 10 accolades at the iF Design Awards 2012.

Good Design Awards 2014
ASUS products have won a total of 17 Good Design Awards, one of the four major design awards recognised by the International Design Alliance, demonstrating ASUS' outstanding product design quality and engineering.

Innovation International CES Awards 2015
Seven ASUS products have been awarded for the CES 2015 Innovations Design and Engineering Awards honoree program. The awards have become a hallmark for the best-designed products in consumer technology and our brand promise of Inspiring Innovation · Persistent Perfection has resulted in such wide recognition for our products.

SINGAPORE OCT 2016 STRAITS TIMES
This dark blue shade gives the ZenBook a classy demeanour, complemented perfectly by the gold trim along the laptop edges. The ZenBook may be inspired by the MacBook's design, but it has a more powerful processor and longer battery life.

SINGAPORE OCT 2016 HARDWARE ZONE
The display is quite gorgeous to look at despite the 1080p resolution that may not seem as impressive on paper. ASUS' notebook bears more than a passing resemblance to the MacBook, but it trumps it in almost every conceivable way, from faster hardware to a lighter and thinner design.

SINGAPORE OCT 2016 LIANHE ZAOBAO
My first trial with the latest ultra-thin ZenBook 3, the most impressive feature is its beautiful body design. After a week of testing, I found that it not only has external beauty but its internal performance is impressive as well.

SINGAPORE JULY 2016 AUGUSTMAN
The Zen AiO Pro has a gorgeous 4K display option, plenty of processing power for your heavy-duty hard work and discrete graphics in case you want to indulge in a bit of gaming.

SINGAPORE MAY 2016 STUFF TV
A top affordable tablet for those who fancy a nice display but aren't willing to pay through the nose for it.

SINGAPORE MAY 2016 ASIA ONE
The ZenBook UX305 was nominated for one of the AsiaOne People's Choice Award 2016 for the best laptop.

SINGAPORE MAY 2016 CLEO
The annual CLEO Guy Stuff Awards 2016, with ZenBook UX305 being awarded the most stylish laptop with its ultra-thin profile and stylish features.

SINGAPORE MAY 2016 HARDWARE ZONE
Also note that the ZenFone 2 Laser is available in a 5-inch variant - the ZE500KL - for just S$239 and it shares all of the attributes of the 5.5-inch reviewed version, making it a more value for money counterpart if price is a strong consideration. Furthermore, its smaller screen size would allow it to have a higher pixel density.

SINGAPORE APRIL 2016 STUFF TV
The ASUS Zen AiO Pro Z240IC is an excellent all-in-one desktop PC that not only looks sleek, but also holds the performance you need for your day-to-day application. Whether it's family movie time or solo gaming, this desktop system gets the job done without much complaints.

SINGAPORE APRIL 2016 HARDWARE ZONE
The ZenFone Zoom on the other hand has an actual optical zoom lens, the same kind you would find in a DSLR or compact digital camera. Zoom lens are far more complicated and bulkier than their fixed focal length counterparts, which is why we haven't seen one in a slim smartphone until now.
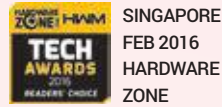

CNET ASIA ★★★★☆
SINGAPORE FEB 2016 CNET

ASUS' ZenFone Zoom breaks new ground with a built-in optical zoom camera. The ASUS ZenFone Zoom puts cool new camera tech to work.

THE STRAITS TIMES DIGITAL AWARDS 2016 Readers' Choice
**SINGAPORE FEB 2016 STRAITS TIMES DIGITAL**

The ZenBook UX305 was awarded the best Ultrabook by their readers in the ST Digital Awards 2016. Their readers chose the ASUS ZenBook UX305 as their favourite likely because of its excellent value, which is probably matched only by the HP Envy 13.

THE STRAITS TIMES DIGITAL AWARDS 2016 Editor's Choice
SINGAPORE FEB 2016 STRAITS TIMES DIGITAL

The ROG G752 was awarded the best gaming laptop in the ST Digital Awards 2016. The ASUS ROG G752 impressed us the most with its snappy orange highlights standing out from its rivals. More importantly, the G752 was a very reasonably priced for its high-end machine.

TECH AWARDS 2016 READERS' CHOICE
SINGAPORE FEB 2016 HARDWARE ZONE

The ASUS ZenFone 2 was awarded for the best mainstream smartphone. The ZenFone 2's Intel Atom Z3560 quad-core processor easily beat the rest of the field, with performance on par with Qualcomm's Snapdragon 801. We also loved its beautiful 5.5-inch Full HD display, and great rear and front camera. While the phone is entirely plastic, its brushed metallic finish is quite convincing, and we liked its ergonomic curved shape, rear volume buttons and quick launch features. At this price, the ZenFone 2 ZE551ML can't be beaten.

TECH AWARDS 2016 READERS' CHOICE
SINGAPORE FEB 2016 HARDWARE ZONE

ASUS was awarded for the Best 2-in-1 Notebook Brand by the Hardware Zone readers. A new category we created last year to reflect the latest trend, the inaugural winner was ASUS. This year, our readers have once again voted for ASUS (30%), maker of fine machines like the Transformer Book T300 Chi, Transformer Book Flip TP200, and T100HA.
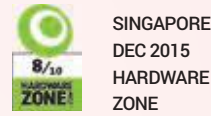

CNET ASIA ★★★★☆
SINGAPORE JAN 2016 CNET

The ASUS G752 is a little slimmer than its predecessor, and its new design lightens up the previous black slab look. Performance is excellent, and a backlit keyboard with macro keys makes for comfortable gaming.

8.5/10 HARDWARE ZONE **HARDWARE ZONE INNOVATIVE**
**SINGAPORE JAN 2016 HARDWARE ZONE**

It's a 17-inch gaming notebook that features the latest Skylake processor and a GeForce GTX 980 GPU with 8GB of framebuffer. That wasn't a typo, the ROG GX700 is in fact one of the few gaming notebooks running a desktop-class GeForce GTX 980 GPU. But more than that, its pièce de résistance is its liquid-cooling dock.

THE STRAITS TIMES DIGITAL EDITOR'S CHOICE
SINGAPORE DEC 2015 STRAITS TIMES DIGITAL

ASUS gets almost everything right with the new Republic of Gamers (ROG) G752 gaming laptop. A powerful gaming laptop that runs quieter than expected. The price is very competitive, too.

8/10 HARDWARE ZONE
**SINGAPORE DEC 2015 HARDWARE ZONE**

And as befits a premium gaming notebook from ASUS' much vaunted ROG collection, the ROG G752's chassis is constructed mainly out of aluminum. It feels sturdy and well put together. However, the ROG G752 is no ballerina. It measures 51mm thick at its bulkiest point and tips the scales at a hefty 4.4kg. Though the thickness is pretty alarming, the weight, however, is pretty standard fare for most 17-inch gaming machines, so there's no surprises there.

8.5/10 HARDWARE ZONE
SINGAPORE NOV 2015 HARDWARE ZONE

Finally, knocking S$70 off the original price is pretty much unheard of, and its new price of S$229 is fantastic value, especially when smartwatches seem to be getting more and more expensive. If you've been looking for a safe entry into the world of smartwatches without having to spend too much, you can't go wrong with the ZenWatch 2.

CLEO Fashion Awards 2015 Winner
SINGAPORE OCT 2015 CLEO MAGAZINE

ASUS was awarded for having the Best Tech for Style Savvy Girls in the CLEO Fashion awards 2015. With the ZenBook range that combines performance and beauty, it would be the best choice for those style-conscious looking for a laptop.

CNET ASIA ★★★
SINGAPORE OCT 2015 CNET

The ASUS ZenFone Selfie is a moderately priced phone that lets you take good front-facing shots in 13-megapixel high resolution. Battery life is great as well.

THE STRAITS TIMES DIGITAL EDITOR'S CHOICE
SINGAPORE AUG 2015 STRAITS TIMES DIGITAL

While the ZenBook may not wow with innovative features, it does everything well. More importantly, it is priced competitively and great value for money. If you don't need a touchscreen, the ZenBook is one of the best ultrabooks for its price.

7.5/10 HARDWARE ZONE
**SINGAPORE AUG 2015 HARDWARE ZONE**

One of the key highlights of the ASUS ROG G501 is its svelte design and slim chassis. The chassis is mostly aluminum and exudes a premium look and feel. It measures just 20.6mm thick and weighs only 2kg, which makes about as thick and lighter than the GX500 unit that we saw at Computex last year. The aluminum is black and ASUS has employed different finishings on the panels to give the ROG G501 more visual pizzazz. The external panels are all brushed, whereas the internal panels such as the palm rests have a matte finish.

DL AWARDS 2015 EDITOR'S CHOICE
SINGAPORE AUG 2015 DIGITAL LIFE

Battery life was excellent, lasting 7hr 6min while playing a video. This is about 30 minutes longer than on the Dell XPS 13. But I expect the MacBook Air to outlast the ZenBook, given that the 2013 MacBook Air clocked nine hours. While the ZenBook may not wow with innovative features, it does everything well. More importantly, it is priced competitively and great value for money. If you don't need a touchscreen, the ZenBook is one of the best ultrabooks for its price.

Stuff ★★★★★
SINGAPORE JULY 2015 STUFF MAGAZINE

Awesome performance, a good screen and highly effective fans that keep the ASUS G751 pretty quiet under pressure make this one of the best gaming laptops around.

HARDWARE ZONE WINNER **8.5/10 HARDWARE ZONE**
SINGAPORE JUNE 2015 HARDWARE ZONE

The winner of our shootout is the ASUS ZenFone 2, not only for its overall excellent benchmark scores, but also for its ergonomic, premium design and top notch Full HD display. If you're in the market for something a little more powerful, you can opt for the $429 4GB ZenFone 2, which also has a slightly faster processor.

Stuff ★★★★★
SINGAPORE JUNE 2015 STUFF TV

The ASUS G751 is for the loud and proud PC gamer. Awesome performance, a good screen and highly effective fans that keep the ASUS G751 pretty quiet under pressure make this one of the best gaming laptops around.

8/10 HARDWARE ZONE
SINGAPORE MAY 2015 HARDWARE ZONE

Excellent design, small and attractive, quiet and powerful processing, customised lighting control, pre-built with warranty and support, and it comes with everything but a monitor. For a slightly higher price tag of S$2,699, the ASUS ROG G20 offers you the chance to do away with the hassles of installation and troubleshooting, and the peace of mind knowing that you can simply take it to the service center if you run into any problems.

CNET ASIA ★★★★
SINGAPORE MAY 2015 CNET

But interestingly, the $299 price for the 4GB does put it in an interesting position, since the focus recently has been on either great low-value phones and high-end handsets. The ZenFone 2 could still be attractive for those who want near high-end performance without being tied to a contract.

Ruggedness Redefined

MATTE ANTI-GLARE DISPLAY
Prevents reflection and reduces eye fatigue, and stops unsightly fingerprint smudges for more attractive presentation.

FLEXIBLE USAGE WITH 180° HINGE
Enables the notebook to be opened flat for a 360° view.

DURABLE REINFORCED LCD
Employs durable reinforced carbon construction that is several times sturdier than conventional plastics. This gives the notebook 20% higher panel pressure resistance compared to standard notebooks, offering better damage protection.

IMPROVED SECURITY & PRIVACY
Fingerprint scanning incorporated for data access authorisation and protection.

OPTIMISED TOUCHPAD
High precision touchpad with bigger touch surface.

BLACK-ON-BLACK PROFESSIONAL SCHEME
Stylish one-piece construction with dark matte finish and spill-resistant keyboard that is able to withstand the rigours of business travel, guaranteeing long-lasting reliability.

SENSEPOINT™ POINTSTICK
Enables flexible control with the optimised touchpad.

MIL-STD 810G GRADE OF RELIABILITY
Tested to the strictest industry standards and proven to be highly durable in drop tests, hinge cycle tests and panel pressure tests.
